ST. CLOUD SCHOOL CLOSSES WITH THE MOST SUCCESSFUL YEAR IN THE CITY'S HISTORY

The closing of the St. Cloud public schools last week for the term of 1924-25 was marked by the graduation of the largest class of young ladies and young men ever recorded in the history of the local schools. One of the most unusual features of the graduation class this year was the large number of young men to complete their high school course in proportion to the number of young ladies. There was eleven in the class to finish and receive diplomas, seven of whom were young men.

Thursday evening the grammar grades held their graduation exercises at the new high school building, and the auditorium was filled to overflowing. The program rendered was greatly enjoyed by the large audience.

On Friday evening the senior class was presented with diplomas by Prof. Zetroner, while a delightful program was rendered, music being furnished by the high school orchestra, of which Mrs. A. E. Cowger has been director since the organization of the student musicians.

A masterful address was delivered to the graduating class by Dr. H. O. Euwall, teacher of psychology in the University of Florida, after which the diplomas and medals were presented, as stated elsewhere in this paper.

The Class of 1925.

There were seven young men and four young ladies to graduate from the St. Cloud High School last Friday evening, as follows:

Meases, Jack Wimmer, Forest Ross, Leslie Wixomton, Burlice Padgett, June Garner, Louis Guesz, Jr., and Fred Brennan. Misses Mary Alice Brucey, Geraldine Johnson, Florence Ross and Mrs. Edith Tyson-Sackhoff.

The following medals were awarded to the various members of the graduating and high school classes: Zetroner medal for the greatest improvement in work during the last four weeks of school: Won by Miss Pearl Davis.

Rank of St. Cloud medal for the highest average in mathematics, won by Ray Cleveland.

Elsiebeth medal for the physically perfect student, won by June Garner.

Middle medal for general excellency, won by Geraldine Johnson.

Edwards medal for highest general average in Latin, won by Charles Hartley.

St. Cloud Tribune medal for record attendance, won by Charles Hartley.

Hailey medal for highest average in English, won by Geraldine Johnson.

Dietsch medal for highest general average in chemistry, won by June Garner.

Class History

This paper will be made up of true facts concerning the history of the class of '25.

In 1921, at this same time in the year, fourteen boys and girls graduated from the Eighth grade. By Fall several of our number had gone away, but when school opened there were three who are with us now, to take their places—Edith, Leslie and Fred. That year one of our girls got married—the first event of its kind which had happened to our class.

In our Sophomore year, the class had thinned down to thirteen. Under the guidance of Mrs. Lee, we formed our class organization and called ourselves "The Lucky Thirteen." Our mascot was a black cat and we sincerely believe that that is the reason no one of this class has flunked a year or failed to get his diploma last night. That year another of our girls got married. It was a yearly affair by that time.

In the Junior year we had only eleven. Florence and Forrest Ross came in with us then. Lucy and Emily left us that year. Edith married during the summer but you see she came back to finish, and we hope you all appreciate the work that has meant for her. During the Junior year, some of us were in the High School play, "Mr. Bob," which was such a success last year.

In our senior year we had ten members in our class. In November, Jack Wimmer came in with us and seemed to be one of us for he shared in with everything which interested the class. Jack left this morning for his home, so is not here to enjoy this most interesting of all chapters.

In the Fall some of us were in the three plays given by Miss Weisbrod. In March we gave our Senior play, "Seventeen," with the help of four or five lower classmen.

Geraldine, Mary, June, Barbara and Louis have come through the four years of High School and the Eighth grade together, five years. Some day you Eighth graders will know what that means to us. Edith, Fred, Leslie, Geraldine, June, Barbara, Mary and Louis have come through their High School days together. The feeling we have for one another is inexpressible. We hope that some day when you lower classmen graduate, you will have as many wonderful memories to part with, as the Class of '25.

MARY ALICE BRUCEY.

Last Will and Testament Senior Class May 1925

Upon behalf of my client, the Senior Class of May, one thousand nine hundred and twenty-five, A. D., of the Saint Cloud High School, County of Osceola, State of Florida, United States of America, I, as the official executor of the aforesaid Senior Class have called you together upon this solemn occasion to read her last will and testament and to receive from her expiring hand the few gifts she has to bestow.

First: We do direct that our funeral services (Commencement) shall be attended by our parents, friends, well-wishers, beloved professor, and his all-wise and ever-competent faculty, who have been our guardians and guides for so long.

Second: We give and bequeath to our beloved Professor, Horace F. Zetroner, our sincere affection, our deepest reverence, our heartfelt gratitude and the whole unlimited wealth of our eternal memory.

Third: We give and bequeath to our beloved faculty all the amazing knowledge and startling information that we have furnished them from time to time in our various examination papers.

Fourth: We do devise and bequeath to the Junior Class of said Saint Cloud High School, the Physics Laboratory of said Saint Cloud High School in hope that they, in their year of research therein, will, even as their illustrious predecessors, unearth secrets which from eternity have lain dormant in their breasts of molecules and atoms.

Fifth: We do devise and bequeath to the Sophomore Class of said Saint Cloud High School, the lunch room of the said Saint Cloud High School, in hope that they, will use its excellent facilities in building up robust bodies and keen minds, which they may carry on to the athletic, civic, and the scholastic fame of said Saint Cloud High School.

Sixth: We do devise and bequeath to the Freshman Class of said Saint Cloud High School, fifty (50) barrels of Gold Dust, in hope that they may use the same diligently and conscientiously in glorifying themselves of the last emerald tinge of green with which they were so liberally coated upon their entrance into said Saint Cloud High School.

Seventh: To certain duly designated members of said St. Cloud High School, who we feel will outlive us (as such), the individual members of this class do devise and bequeath as follows:

Florence Ross, her red hair to Maria Jennings.
Geraldine Johnson, her playful ways to Edith Farr.
Louis Guesz, his excellent scholarship to Charles Hartley.
Mary Alice Brucey, her "raven locks" to Frank Whenton.
Leslie Wixomton, his eye for the the basket to "Doc" Walters.
Fred Brennan, his spare time to Tobe Ross.
Edith Tyson-Sackhoff, her friendly

Vice-President Marshal Dies At 71

Thomas Riley Marshal, Vice-President of the United States for eight momentous years of its history, has followed his chief, Woodrow Wilson, into death, the end coming last Sunday evening.

Recurrence of a heart attack, which sent Mr. Marshal to his bed on Monday a week ago immediately after a trip from Indiana, brought on the end rather unexpectedly to his close attendants. Reports had come from his sick room, that despite his 71 years, he was steadily recovering from his nervous exhaustion and severe cold.

Reading Bible at End.
Death came quietly to Thomas H. Marshal in his room on the fourth floor of the New Willard Hotel, where he lived during his two terms as Vice President. Propped up in bed with pillows after eating his breakfast,

APPORTIONMENT SETTLED FOR TEN YEARS; MANY CHANGES

Tallahassee.—Although termed the "Crime of 1925" by Representative Bell, of Detroit the legislature for the first time since 1887 has passed a reapportionment bill.

The bill, which was introduced in the Senate by Senator Hale and Edge passed the upper chamber almost unanimously and was approved in the lower branch by a vote of 51 to 27. It gives six new senators to the territory now embraced in the ten senatorial districts comprising what is termed South Florida.

The legislature will be apportioned for the next ten years as follows:

One representative in the House each to Alachua, Baker, Bay, Bradford, Brevard, Broward, Calhoun, Charlotte, Citrus, Clay, Collier, Columbia, De Soto, Dixie, Flagler, Franklin, Glades, Hamilton, Hardee, Hendry, Hernando, Highlands, Holmes, Jefferson, Lafayette, Lee, Levy, Liberty, Monroe, Nassau, Okaloosa, Okechobee, Osceola, Pasco, Sarasota, St. Lucie, Sumpter, Taylor, Union, Wakulla, Walton, Washington.

Two representatives in the House each to Escambia, Gadsden, Jackson, Lake, Leon, Madison, Manatee, Marion, Orange, Polk, Seminole, Putnam, Santa Rosa, Suwannee, St. Johns, Suwannee, Volusia.

Three representatives each in the House to Duval, Duval, Hillsborough, Pinellas, Polk.

The reapportionment makes the senatorial districts as follows:

First—Santa Rosa and Okaloosa; second, Escambia; third, Walton and Holmes; fourth, Jackson county; fifth, Liberty, Franklin and Wakulla; sixth, Gadsden; seventh, Polk; eighth, Leon; ninth, Hernando and Citrus; tenth, Madison; eleventh, Pinellas; twelfth, Taylor, Lafayette and Dixie; thirteenth, Duval; fourteenth, Columbia; fifteenth, Bradford and Union; sixteenth, Nassau; seventeenth, Suwannee; eighteenth, Duval; nineteenth, Orange; twentieth, Marion; twenty-first, Levy; twenty-second, Jefferson; twenty-third, Lake; twenty-fourth, Monroe; twenty-fifth, Wash-

ington, Bay and Calhoun; twenty-sixth, Putnam; twenty-seventh, De Soto, Hardee, Highlands and Glades; twenty-eighth, Volusia; twenty-ninth, Clay and Baker; thirtieth, Hamilton; thirty-first, St. Johns and Flagler; thirty-second, Alachua; thirty-third, St. Lucie, Osceola and Okechobee; thirty-fourth, Hillsborough; thirty-fifth, Palm Beach and Broward; thirty-sixth, Manatee and Sarasota; thirty-seventh, thirty-eighth, Seminole and Brevard; thirty-ninth, Pasco and Sumpter.

JUNE MEETING ST. CLOUD RED CROSS CHAPTER

The St. Cloud Red Cross Chapter met on June 1 at the Chamber of Commerce room.

Miss Hunter reported a continuation of last month's work in inoculations for diphtheria and typhoid, and treatments for hookworm. Forty per cent of the children in her territory are reported suffering from hookworm infection, most of them being anemics. In St. Cloud twenty-eight per cent are positive according to Miss Hunter.

Miss Hunter interviewed three of the local church societies in regard to the loan closet, and reported garments promised for this use.

Mr. Wm. Landis spoke of the urgent need of a car for the nurse to use. The most important part of her work is to follow up the examinations with personal oversight where defects are found. This work can not be satisfactorily kept up unless she has a car. Plans for raising the necessary funds were discussed, but nothing definite was decided upon.

The committee on transportation for Decoration Day take this means of thanking all those who so liberally furnished automobiles for those who wished to go to the cemetery on the occasion of the decoration of the graves of those who had fought in the wars in years gone by, and whose memory was honored by the placing of flowers and flags on their last resting place in Mt. Peace cemetery on Saturday, May 30.

DECORATION DAY OBSERVED IN ST. CLOUD: GRAVES OF VETERANS ARE DECORATED

Early Saturday morning of last week committees from the G. A. R., Post of St. Cloud, the W. R. C., American Legion and other patriotic citizens journeyed to Mt. Peace cemetery where fitting floral tributes were placed on graves of veterans of the wars of past history, while the National colors were planted on many a grave of departed soldiers buried in the city's resting place for those who have gone before.

A parade through the streets of the city added to the memory of the occasion which was being observed throughout the city by display of the national colors. Most of the business houses closed from 11 to 12 noon for the occasion.

G. A. R. Program.

The G. A. R. post observed memorial day with a fitting program at their hall in the afternoon, which took the place of their regular Saturday afternoon service.

Comrade Raymond opened the afternoon program with a bugle call after which "America" was sung by the

audience. A prayer was offered by Rev. N. W. Beachamp, Commander W. Frank Kenney was in charge of the meeting.

A duet, "We Are the Boys," was rendered by Comrades J. F. Ballard and C. W. Deputy.

Orders of the Post were read by Adjutant Gould.

A quartette composed of Messrs. L. M. Parker, S. W. Porter, Steen and Dawley was rendered and an encore was responded to.

President Lincoln's famous Gettysburg address was read by Comrade A. W. Lathrop.

Comrade J. F. Ballard rendered a solo and this was followed by a recitation by A. S. McKay, "The Story of Our Heroes."

Dr. Ivar G. Hyndman, pastor of the St. Cloud Methodist church, delivered a masterful memorial address, which was declared by those in the audience to be the best ever rendered in this city.

The "Star Spangled Banner" was sung by the audience and the benediction was said by Rev. Dr. Cook.

UNIVERSITY SUMMER SCHOOL FOR COMMUNITY LEADERS AND SOCIAL WORKERS

The marked interest in the Short Course for Community Leaders and Social Workers offered last summer at the University of Florida has made possible a much more ambitious program for this coming session. The first month will be of special value to those interested in Women's Clubs, Parent-Teachers' Associations and Club work with boys and girls. A Parent-Teachers' Association Institute will be held June 15-20 under the direction of Mrs. S. M. N. Marks of Texas, representative of the National Organization with the assistance of members of the University Faculty.

The week of June 22-27 will be given over to the training of those interested in Boy Scouts, Campfire Girls and Boys' and Girls' Clubs. The instructors include Scout Executive Hugh Foster, Dr. A. L. Shenley, State Y. M. C. A. Secretary R. L. Reynolds, H. W. Blacklock, State Agent for Boys' Clubs, Miss Phyllis Gibson, State Home Demonstration Agent, and others. There will be hikes and a visit to the Scout Camp at Interlachen.

The week of June 29-July 4 will be devoted to a study of Race Problems of the South under the leadership of Dr. T. J. Wootter, Jr. of Atlanta who has just published a book on "Inter-Racial Cooperation" which will be used as a basis for discussion. Supplementary lectures and discussions will be held.

The fourth week of the Summer School July 6-11 will bring to the University some experts in Community Building. Such topics will be discussed as Town and City Planning, Community Organization, Problems of Municipal Government, etc. The following courses will be found of special value, in addition to the above: Introduction to Sociology, Rural Sociology, Elementary Case Work, Child Study, Problems of Child Welfare, Educational Psychology, Health Education, Rural Life Movements, Ethics, and the lectures on Public Health by Dr. Ralph E. Barnes of the Florida Public Health Association, Dr. F. A. Brink of the State Board of Health and others.

During the second month the work will be arranged with special reference to the needs of those engaged in professional social work who cannot get away for more than the month. Dr. L. M. Bristol who is at the head of the Department of Economics and Sociology and has wide experience in various fields of social work will be assisted by Miss Edith Wilkins of the Family Service Association of Tampa, Dr. W. S. Walsh of the State Farm Colony for the Epileptic and Feeble-minded and others. The special courses include Elementary Case Work, Advanced Case Work, Field Practice, Psychiatric Social Work, Problems of Child Welfare, Lectures on Public Health, visits to some of our State Institutions together with conferences.

An entirely new feature of the Summer School this session will be a course in Nursing Education given by Miss Blanche Peppercorn, of New York, Executive Secretary of the National League of Nursing Education. Some forty nurses now in the Florida Training Schools have signified their purpose to attend. This work is under the patronage of the Florida State Committee on Nurses Training. Those coming the first part of the Summer School may secure special railroad rates by writing for identification blanks to the Dean. No tuition will be charged but a registration fee of \$5 for two months or \$3 for one month.

NIOBE, SCHOOL PLAY GREAT SUCCESS—ALL LOVAL FOLKS

One of the most pleasing plays given by local talent recently was "Niobe" rendered by pupils of the St. Cloud schools under the personal supervision of Miss Margaret Walshbrod, one of the high school teachers.

A full house greeted the players when the curtain was rung up on the first act of this delightful play, and the large audience enjoyed the evenings entertainment immensely.

The St. Cloud High School orchestra rendered music for the occasion, being under the direction of Mrs. A. E. Cowger.

TWENTY-THREE CARS

Plant City, May 28.—During the past three days 23 cars of produce have been forwarded to the northern and eastern markets from Plant City. The total includes one car of peppers and one car of grapefruit. The latter shipment is the first forwarding of grapefruit in car lots for some weeks past.

Tomatoes lead in volume of forwarding from this point, with 21 solid cars out of the total of 23 of produce forwarded. The one car of peppers went forward Friday and the car of grapefruit Monday. Shipments of tomatoes, by days have been forwarded as follows: May 21, 6 cars; May 22, 12 cars; May 23, 3 cars.

The package movement by express is letting down considerably, with 1,707 packages for Friday and Saturday. Tomatoes lead heavily in the package forwardings, with pepper a poor second, but well ahead of other lines. Produce prices Tuesday noon were running as follows: packed tomatoes \$1.50; pepper, \$1.25; beans, \$1 to \$1.50; okra, \$3; eggplants, \$2; corn; blackberries 8 cents per plants; lima beans, \$2.50; black-eyed peas, \$1.

Car lot shipments of citrus fruits and produce for the season stand as follows:

911 cars oranges, 104 cars grapefruit, 5 cars tangerines, 62 cars cabbage, 179 cars vegetables, 23 cars potatoes, 45 cars beans, 275 cars strawberries, 19 cars cucumbers, 194 cars tomatoes, 6 cars peppers and 1 car watermelons.

CARNELL SALES COMPANY REPORTS OVER 900 LOTS SOLD RECENTLY

Mr. R. K. Mitchell, sales manager of the Carnell Sales Company, 62 North Orange Avenue, Orlando, who was in St. Cloud this week, reported to the Tribune that sales of lots at Carnell during the past two weeks had totaled over nine hundred, and that lots that had sold for \$100.00 before development are now bringing from \$250 to \$350.00 each.

Carnell is the new townsite under development some ten miles east of Sanford, four miles from the St. Johns River and eighteen miles south of DeLand in Volusia county. The entire townsite of some 5,000 lots were sold recently to the Carnell Sales Company by C. A. Roberts.

About two weeks ago five hundred lots in Carnell were sold to a group of northern capitalists, according to Mr. Mitchell, and were purchased as an investment. This week four hundred and fifty lots were sold in addition to those purchased two weeks ago.

Improvements at Carnell are progressing rapidly. The new administration building has just been completed on the property and the streets are being opened and graded. It is the outlined program for the erection of a 200-room hotel and building lodge in the near future. Work is being rapidly pushed on the first outlay of the beautification program.

SCHOOLS SOON CLOSE AT HOLUPAW

Mr. and Mrs. M. A. Cook, of Blodgett, Miss., have arrived in Holupaw. Mr. Cook has accepted the position of auditor for the J. M. Griffin Lumber Co. He is one of the old employees of Mr. Griffin and will aid much in the working personnel of the clerical department of the lumber company.

Mr. Ben Harris, also of Blodgett, Miss., will be connected with the J. M. Griffin Lumber Co.

F. G. Milan has resumed his logging superintendent at Holupaw and will move to St. Cloud, where he will engage in business.

Robert Sones, the manager for the Holupaw Drug Store, has returned from a visit to his old home in Mississippi.

Miss Wilson, a graduate nurse from Jackson, Miss., is now on the job as community nurse for Holupaw. She shows by the way she handles the work that she is the right woman in the right place.

The new Holupaw school building is now complete and the last two weeks of school will be held in the new quarters. It is one of the most up-to-date rural schools in this section. The building is modern in every respect and is a credit to the community and much praise is due the county superintendent, Sam Brammar, for his cooperation in making the building one of the best. The carpenter foreman, "Uncle Andy" Griffin, has shown by the way that he has handled this work that he is not only one of the fastest workmen, but one who can do a finished job in the shortest time. The six-room building was put up from the ground to a finished product, all ready for the school to open, in eight weeks.

The Holupaw school will come to a close next Monday night, June 8, at eight o'clock, graduating eight pupils from the grammar grades. On Friday evening, June 5, a program will be given by the school. This will portray the development of education from early history to the present day. One hundred and twenty-five pupils are used, and this alone will mark an epoch in the history of the Holupaw school.

Sunday morning at eight o'clock Rev. Callan, of the Presbyterian church of St. Cloud will preach the commencement sermon. Special music for a large chorus has been prepared under the direction of Mr. R. R. Steinwunder of St. Cloud.

Monday evening at eight o'clock in connection with the delivery of the certificates by county superintendent Sam Brammar, Rev. I. G. Hyndman, of the St. Cloud Methodist church, will deliver the baccalaureate address.

The public and friends of the students are cordially invited to attend all these meetings.

Mr. J. W. Stalnaker, Hudson-Knox manager for Okaloosa county, who has been ill for some time and was unable to call on his trade, is now on the job again, and states that the shortage of cars, due to heavy sales, will be overcome in a few weeks, and the demand for new Hudson and Essex cars will be met promptly.

SWAMPED WITH HOMELESS CHILDREN, CHILDREN'S HOME SOCIETY OF FLORIDA PLEADS FOR GOOD FAMILY HOMES.

Food, Food, Clothing Also Sorely Needed

If you are thinking or ever have thought of taking a fine boy or girl—or a pair or trio into your home, now is the time for you to act, for the Children's Home Society of Florida, at its Receiving Homes in Jacksonville and Pensacola, is literally swamped with boys and girls—particularly those above six years of age—and is pleading with good families all over Florida to provide homes for one or more of these fine children, who are homeless through no fault of their own, and are eagerly hoping each day that they may soon find a good home.

The Home Society is particularly anxious to secure good homes for some fine pairs of boys and some fine pairs of girls—who are so devoted to each other that the Society dreads to think of separating these pairs of children.

All the facts concerning the history of these children will gladly be given to families who take the children—and all the Society asks of families who apply for children is that the family be of good character, that the home be clean and comfortable, and that the income be sufficient to assure a reasonable home life and at least a grammar school education.

The Society does not supply children for hired girl—but expects that every child old enough to be of help in the home or on the farm—will be taught to be helpful and industrious.

All children placed by the Society are sent out on trial for several days who will treat them in every way family may have opportunity to know all about the child's disposition and habits before any permanent arrangements are made.

Some fine pairs of little tots five years and under are available—and four little five year old boys are pleading for good homes.

Several fine older girls from fourteen to sixteen years old will be available for the summer, with families who will treat them in every way as members of the families—and permanent arrangements for such older girls can be made with families interested in giving those older girls education and training.

Think it over—Talk it over—and write to Marcus C. Fagg, State Superintendent, Children's Home Society of Florida, State Headquarters, 428 St. James Bldg., Jacksonville, Florida. Mr. Fagg will gladly send you an application blank, photos of children and tell you all about the whole proposition.

To those who cannot take children, the Society makes an earnest plea for money, food and clothing—anything that children from wee babies on up can eat, wear or enjoy.

The Home Society is desperately in need of funds, in fact this great State-wide, non-sectarian work which has cared for over eleven thousand homeless and needy children from all parts of Florida, must cease unless funds are sent in promptly.

The Society has no solicitors anywhere, and depends on voluntary contributions coming through the mails, entirely.

All contributions of money should be sent to R. V. Coelington, Treasurer, 428 St. James Building, Jacksonville, while all other articles should be sent to 1804 Riverside Ave., Jacksonville, or to the West Florida Home, 7th Ave. and Jordan St., Pensacola. Do what you can to-day—before you forget. Please.

Miss Edna Seagle and her grandfather will leave next Monday for their summer home in Michigan. They will be numbered among the early arrivals in St. Cloud for the next tourist season.

FLAG DAY, JUNE 14

All patriotic citizens of St. Cloud are urged to remember that flag day will occur on June 14th, and everyone is requested to display their American flags that occasion. If you have no flag now, provide one or more by the annual day set aside to honor the country's colors.

A \$2,000,000,000 WORD
NATURE IN NO HURRY
ONLY HUMAN BABIES
"THE LORD HAVE MERCY"

Mr. Woodbridge, new head of the
Advertising Clubs of the World, says
newspapers are the "pre-eminent ad-
vertising medium for selling mer-
chandise quickly."

To the real business man it is more
than that. It is the ONLY advertising
force that can BUILD UP A
NAME. Reputation is Reputation.

And only newspapers can give a
REPUTATION the REPUTATION that
creates value. Dollars put into brick,
mortar, steel and glass will tear
down. Money invested in advertising,
building up a name WORTHY to be
advertised, will outlast all your
factories.

Ford's factories perhaps are worth
fifty millions. The one word "FORD"
is worth at least TWO THOUSAND
MILLIONS.

South Africa, land that produces
gold, returns to the gold standard,
imitating old Mother England. Down
there, below the equator, under the
hot sun, tens of thousands rush to a
new gold field. About ten times as
many blacks as whites are in the
rush. But, needless to say, when the
dust settles the whites will have the
gold dust.

What would happen to the gold
standard and the world's finance, if
this new gold field should suddenly
multiply by two, or ten or twenty the
world's gold supply? That, however,
will surely not happen.

All through the U. S. white men
have cut each other's throats to get
them, gold and silver have been in-
dented their value, based on scarcity,
with slight fluctuations. Providence
seems to have arranged that for its
mysterious reasons.

This is the only country that has
any supply of helium gas worth while.
We get it after it has leaked up
through the earth and in pools of
natural gas.

According to Dr. Ekul, chief of
the Bureau of Mines, "it takes 20,
000,000 years for helium to leak from
minerals and rocks and come within
our reach."

Many things happen in science that
couldn't happen if this earth were
only 6,000 years old, as was once be-
lieved. It took millions of years for
evolution to change a creature as big
as a fox, with seven toes, into the
horses of today.

It takes 20,000,000 years for helium
gas to become available. It will take
our sun 300,000,000 more years to cool
off.

A New York lady ran a baby farm.
The babies died rapidly, especially if
their board bills were not paid. One
poor infant dug up after burial had
a fractured skull. The rate of mortal-
ity was horrible.

If anybody kept such a farm for
baby dogs or cats, the "Cruelty to
Animals Society" would probably in-
tervene and regulate it. How does it
happen that the so-called Society for
the Prevention of Cruelty to Children
knew nothing about the baby farm or
its death?

Dean Inge, who doesn't like to be
called "Boomp", is in London de-
scribing America.

He says our "ruling energy" is
mostly pose and the language we
speak is something like the English
language. On the whole the dean is
friendly.

In one of his essays he tells you
that when St. Paul thought he was
inspired he was really suffering an
attack of epilepsy.

If St. Paul could stand that, we
ought to be able to stand criticism
of our Yankee language.

In Pennsylvania, William Cavalier,
fifteen years old, and a murderer, has
been sentenced to die in the electric
chair. The sentence wound up with
"And may the Lord have mercy on
your soul." The reporters thought
the boy winced a little at that, and
at the words about "Death—electric
current—passed through body—until
dead." The boy smiled as he left the
court, and a few minutes later, in
his cell, he was playing a popular
song, "Katerina", on his phonograph.

Fred Lennie, Warden in charge of
the young criminal, said, "Listen to
that music. He doesn't know what
it's all about." You may truly say

"SIMPLY STAGGERING"

Excerpts From Article by Willis Powell in "Nation's Business"

Florida is playing the stellar role
on the nation's stage, to stand-
ing-room only, with 50,000 dredges and
sand-diggers throwing up sea walls
along its 1,800 miles of coast line to
keep people from being pushed into
the Atlantic ocean or the Gulf of
Mexico. Its audience is not alto-
gether the tourists, tourists and
tourists of other years.

Hotel Construction

There isn't a day that passes with-
out the state-wide papers announcing
the erection of hotels costing from
one to ten million dollars. A million
is the unit of value. These palatial
hostelries have three speeds forward,
for they have to make a 365 days
run in 100 days' time. It is nothing
for a small community of 3,000 to 5,
000 people to announce a \$1,000,000
day in realty sales. Communities of
5,000 inhabitants have 300 to 400 real
estate brokers and salesmen.

They Buy Real Estate

It is in the air. One comes to Flor-
ida biased with a determination to
make an honest survey of the situa-
tion and go back home and tell of
the money trappers lurking on the
path of visiting capital. But those
who come to scoff absorb a thick
slice of Florida realty within a day
and wire home for the balance of the
old family bank deposit.

Quotes Prominent Men

C. W. Barron, editor of the Wall
Street Journal and the Boston News
Bureau, prints boldly:

If the land boom in Florida are
maintained a few years and the
federal officers are efficient, the Cool-
idge-Mellon program for the reduc-
tion of supertaxes for the whole coun-
try may be realized—provided Florida
land profits are properly divided with
Uncle Sam. People from the North
come here cautiously; but when they
once determine that it is an all-the-
year-round state with an all-the-year-
round pleasurable climate, the money
and enterprise pour in.

Judge Kousan, M. Landis, King of
the Scots:

There is only one way to stop this
tremendous development of Florida,
and that is to station a line of milita-
men across the northern border of
the state with orders to shoot every-
body that tries to enter.

Brooklyn Eagle: Conditions of
feverish excitement approaching in
their intensity the hysteria which at-
tended the California and Alaska gold
rushes are being duplicated in Florida
today in what is the most phenomenal
boom in the history of the United
States.

Railroads

At this writing there are rumors
that John Skelton Williams and Wil-
liam Gibbs McAdoo will hook up a
number of minor roads and be on the
West Coast with another road by fall.
It is said—it's a great place for say-
ing things—that the Illinois Central
is buying land along a tentative right-
of-way through the state to the West
Coast. The Atlantic Coast Line has
applied to the Interstate Commerce
Commission for a permit to extend its
line from Sarasota to Fort Ogden, and
a rumor survey brings it to Miami.
President Warfield, of the Seaboard,
gave out a statement early in March,
concerning the extension of the Sea-
board north of Brooksville to tie up
with the main line.

The Ringlings

John and Charles Ringling, of Wis-
consin, live in Sarasota. Last sea-
son, from the time their Ringling
Brothers and Barnum and Bailey's
Combined shows opened at Madison
Square Garden until it closed the
season at Richmond, Va., they ad-
vertised Florida with billboard litho-
graphs, with trappings on elephants,
giraffes, and on the "lot", and be-
fore 3,500,000 patrons of the big tent.

the same of a system of "justice" that
sentenced to death a feeble-minded boy
of fifteen.

Habscon Park

Roger Babson selected Polk county
and founded a city named Habscon
Park. Burrton G. Collier, not content
with founding a subdivision or a
town or city, founded an entire county
named after himself, king of street
car advertising. Edward W. Bok, of
Philadelphia, acquired a principality

in the knolls of Polk county to estab-
lish a Flamingo Jungle, or bird colony.
J. W. Young, of Hollywood, by-the-
sea, on the East Coast, announced
that he would build a great harbor
there at an expense of \$15,000,000 or
\$25,000,000—something like that—and
General Goethals will superintend this
work.

Ford and Firestone

Henry Ford and H. S. Firestone
bought some thousands of acres and
will prove that America can grow its
own rubber. W. J. Conners, of Buf-
falo, built a cement highway some
sixty miles long from West Palm
Beach to Okeechobee City. Some of
the land abutting was once purchased

from the state for twenty-five cents
an acre; now it is \$100 a front foot
easily.

An Empire

One should travel and absorb. As
a challenge and an invitation Florida
invites the world to know Florida as
it is—an empire rediscovered, the
playground of the nation, the garden
of America, the country of the great
outdoors, where the sea and the sky
are in their merriest mood and it's
June-time all the time.

Blonde Boss Opines

boss pays any attention to—That's

A CLEAR SKIN

Bright, sparkling eyes, cheeks with
the glow of health, a skin as smooth
as velvet, the ideal we all strive to
attain. No blemishes, no eruptions,
no blackheads, no marks to destroy
the even texture of healthy skin.

The secret is pure, red blood free
from poisons and impurities, blood
that makes the body glow and radi-
ate health, blood that drives pim-
ples, boils, eruptions, eczema and
skin blemishes from the system.

Mr. and Mrs. G. O. Ricketts, well known in St. Cloud, and Kalamazoo, left St. Cloud for Bellefontaine, Ohio, April 16 to visit Mr. Ricketts' mother, Mrs. Wm. A. Ricketts, who for some time has been very ill. Mr. and Mrs. Ricketts were called to Fort Wayne, Ind., last Wednesday on account of the death of their little grand son, Oscar H. Ricketts. The deceased was the only child of Mr. and Mrs. Harold P. Ricketts, formerly of St. Cloud. They took their little boy to Fort Wayne for treatment, but to no avail. The dear little fellow passed away Tuesday afternoon, May 19th 1925 at 3:10 p. m. in the hospital. He was 7 years, 10 months, 2 days, was laid to rest in a beautiful cemetery near Columbus City, Ind. The parents have the heartfelt sympathies of their many friends of St. Cloud and Kalamazoo.

MR. AND MRS. C. PARKER ENTERTAIN FOR SCHOOLS.
Mr. and Mrs. Calvin Parker entertained the faculty and senior class of the St. Cloud High School last Friday evening at a watermelon feast. Soon after the graduation exercises were over the lawn of the Parker home became a scene of much merriment. Watermelon, sandwiches and other refreshments were served in the grove. At 10 o'clock an act of games the guests returned home, having spent a most enjoyable time.

W. R. C. MEETING.

L. L. Mitchell Relief Corps, No. 12 met in regular session May 28th, with the President, Clara E. Keney in the chair. All officers except two were present at roll call. Mrs. Nellie L. Brown was initiated into our order. Considerable time was taken up making arrangements for Decoration Day. The Patriotic Instructor, Mrs. Vreeland, was to use her judgment in regard to the prizes offered by the Corp to the school. Thirty-nine members were present. FLORA COX, P. C.

WE INSIST THAT SANITATION MAKES ILL-HEALTH TAKE A VACATION

Walter Harris Little Plumber

All we've got to say in this little essay on plumbing we do makes a sanitary home possible and causes ill health to vacate from the premises. And we would like to impress you with the fact that we understand the plumbing business well enough to be able to render you a moderate sized bill.

Drain Your Land for Larger Crops

DRAINED land is fertile land. It will increase your crop yield enormously, enough more to pay for the drainage in one season. You will harvest better crops. You can work your land earlier and easier. Drained land has a higher value, making drainage your best investment.

But be careful in selecting your tile; you don't want to do the job over again. Our tile are made of concrete by the Dunn method, insuring the best that can be made. They do not disintegrate, but actually improve with age. Every one is guaranteed.

HOLLYWOOD

BY-TH E-SEA

Florida's All-Year Resort City

THE fact that Hollywood By-the-Sea now has twenty high grade apartment houses is of great significance—for wherever the apartment house appears, there population is increasing—rapidly increasing. This type of building is never a mere forerunner—its appearance means substantial growth already begun—an influx of people—an overplus of families—on the ground—demanding accommodations.

Apartment buildings long since become an established factor in the development of Hollywood By-the-Sea; it is to the ever increasing activity in this branch of building and in the culture and architectural beauty of the buildings that attention is now invited. Hollywood By-the-Sea apartment owners number some of the shrewdest business men and women in Southern Florida.

The reasons for their confidence are plain to everyone who visits the miracle city, and see the things that have been done, and the gigantic operations now in progress. Summed up, the reasons are: The natural advantages of a wonderful location directly on the shores of the Atlantic Ocean, and aggressive, unrelenting work on a plan of development broadly conceived to make the most of the advantages that were Hollywood's to begin with.

Hollywood's New Three-Million-Dollar Hotel

One of the strongest endorsements of Hollywood's future is the new three million dollar, five hundred room hotel, now under construction on Hollywood Ocean Beach. This is but one of the many enterprises that are causing property values and population statistics to soar skyward with a rapidity that is making a new high mark for the Florida East Coast.

Free luxurious auto-bus trips of inspection are made weekly from St. Cloud to Hollywood By-the-Sea, through the tropics' gorgeous splendor and along its most enchanting waterways. Call at our office today and learn the particulars of this delightful FREE trip, and get our beautifully illustrated literature. If it is not convenient to call, mail us the attached coupon and we will send you full particulars by earliest mail—that mail it today.

LETTERS TO EDITOR

St. Cloud, Fla., May 20, 1925.
Dear Editor:
I wish to congratulate Professor Zetroner on the fine showing the St. Cloud school has made the past year, but especially do I wish to thank him for securing as speaker for the graduating class a man of sound Christian principles; and also for the stand which Prof. Zetroner has taken in reference to school government and discipline.

I sincerely hope the Professor will return to St. Cloud next fall and make this his permanent home as principal of our school.

Yours respectfully,
J. H. CLELLAN

THE KEY THAT UNLOCKS PARADISE IS CLIMATE

Darwin P. Kingsley, former president of the Chamber of Commerce of the State of New York, and now president of the New York Life Insurance Company, in an address at a banquet given to the officers and field men of that insurance company at Seabreeze, Fla., said in part:

"We are rapidly coming to understand that climate is a great asset. People formerly were disposed to swear at Florida and the South generally because, particularly in Florida, the chief asset, they thought, was climate."

"The swelling prosperity of the South compel all of us to realize its resources and to place at or near the top of the list of its assets climate. On reflection we see that this was always inevitable. Some one has said that we can live for a month without food, for a shorter time without water, but shut off all air for five minutes and at the end of that time we would be dead."

"The quality of the air we breathe is necessarily of first importance. Is it harsh or biting, frigid or mild? Does it bring bronchitis and pneumonia on its wings, or does it bring healing? Must we house ourselves for half the year in stuffy, steam-heated rooms, or may we live in the open and sleep in the open?"

"All these questions answer themselves and explain, in large part, the migration to Florida and southern California. If Ponce de Leon had come to Florida with no idea in his head of the fountain of Eternal Youth, the idea that such a fountain existed somewhere here would naturally have occurred to him. Now thousands are yearly coming to Florida and the South, seeking for and finding what Ponce de Leon sought and never found."

"Fleeing from the winters of the North, people find here climate and much more. They found uncounted millions of dollars of natural wealth, and they remain to help make the South great."

"Florida has had three great pioneers, not including the great Spanish adventures of centuries ago. These pioneers are Fletcher, Plant and Ward."

FLORIDA'S NATURAL RESOURCES

We little realize the great value of sunshine.

There is so much of it in Florida that you feel to appreciate it, but sunshine is practically the basis of all wealth.

Not only are the crops of the world dependent upon sunshine; not only is sunshine the greatest factor in the health of communities; but sunshine is the basis of all power.

When we have water we only release stored sunshine; when we burn coal we merely liberate stored sunshine; and when we use water power we simply use the power of sunshine. It is sunshine which draws the water up into the clouds, then clouds break the water falling on the land, running down as streams, and these streams forming rivers developing great power on their way to the sea.

Experiments are being carried on today which may enable us to obtain this power directly from the sun without the run-about method of using wind, coal or water power. When this time comes it can readily be seen what the development will mean to Florida.

But sunshine is only one of the natural resources which are the fundamentals of agriculture. The others are phosphate, sufficient moisture and closeness to markets. Florida leads all states in combining these four qualifications.

As the years go on all agriculture will be absolutely dependent upon phosphate. The automobile has practically made the horse extinct, and synthetic milk may likewise make the cow extinct. Our grandchildren will see reindeer meat instead of beef. Hence not only will our ground become more and more in need of fertilizer will be limited to phosphate and chemicals with which we combine it.

Florida has not only the sunshine and the phosphate, but it is nearer the great consuming centers of the country. Central Florida is only 750 miles from the center of population, compared with a distance of about 2,000 miles for California. Moreover, the Seaboard Air Line and the Atlantic Coast Line railways realize this and will some day greatly profit thereby.

Perhaps the most valuable of all Florida has an abundant rainfall and this rainfall comes at the right season. California has rainfall, but California's rainfall comes when it is not wanted for agricultural purposes hence California must resort to irrigation.

Natural resources, however, of themselves are not sufficient to make prosperity. The heart of Africa possesses great natural resources; Mexico and Russia are both rich in natural resources, but it is not enough just to possess great resources—they must be used to advantage.

His Bride—The Richest in the World

David M. Milton, young lawyer of moderate means in New York, and his bride, who was Miss Abbey Rockefeller, conceded to be the World's richest bride, as they sailed for Europe on their honeymoon last week. She is the daughter of Mr. and Mrs. John D. Rockefeller, Jr. The wedding was a simple one and attended by only members of the families. Grandpa Rockefeller was there.

THE CLASS PROPHECY

(Class of 1925, St. Cloud High School)

Yes, Prof. Zetroner's prophecy came true. About ten years after I graduated I happened to be walking down one of the dark alleys in the slums of New Orleans when I was suddenly hit upon the head by some unseen body and—well, here I am, an uneducated, unlearned, wandering spook.

Now it happened one day about 1945 while I was wandering around like a lost radio wave in the middle of the Sahara Desert I suddenly remembered that I had once been a member of that famous class of '25 so I took a fancy that I would like to look them up and see what they were doing.

Rising up above the clouds I went to a general direction of St. Cloud and started thence. In the twinkling of an eye I was there and to my surprise I was an enormous metropolis is spreading in every direction for miles and miles. Looking directly below me I saw a big sky-scraper, as I am very curious, I decided to investigate. Sliding down the telephone wire I found myself in a spacious office. I was attracted by loud shrieks and moans coming from a door at my right. On the floor was this sign:

"Dr. Garner, M. D., E. H. D., L. D., D. and D. D. Painless Surgeon, Creeping then the lady—I beheld the Hon. Dr. Garner perched upon a patient wearing a mighty monkey-orchid in one hand and a queer looking mallet in the other which, at regular intervals, he would pound the patient upon the head to restore his spirits. Shaken by the horrible sight I quickly exited thru a knothole in the door, thinking my stars that I was not a mortal."

When I had regained my natural state of mind I found that I was in another office similar to Dr. Garner's. A sign over the door informed me that I was in an Undertaker's Parlor. A man whom I recognized at once to be Leslie Winton, was sitting in a chair at a desk gazing longingly and expectantly at the ceiling. Creeping near I heard him say, "It sounds like I'll have some business before long." I left this office with a sinking feeling in the place where my stomach used to be and climbed up into the fresh air.

Strains of music reached my ear so I descended towards their source. They came from a magnificent mansion so—I entered, as all sports can do (without a card). A big party was in progress. Mr. Fred Reagan and Mrs. Geraldine Johnson Reagan were officiating as the Hon. Host and Hostess. Mrs. Reagan favored us with a most beautiful and artistic rendition entitled, "Let Me Call You Sweetheart," which brought down the house after which Mr. Reagan sang for us his old favorite, "Meet Me Tonight in Dreamland." After this excellent entertainment the guests began to visit among themselves. I happened to be standing near a piano, back of which was a bench and seated upon this bench were two persons. I soon found them to be two of my old friends, Jack Wimmer and Florence Ross. After listening to their conversation for a short time I learned that they were having a family spat. Florence emphatically told Jack that if he did not pay more attention to her thereafter she would sue him for a divorce in that famous law firm, Padgett and Ross, on the grounds of cruelty and desertion. I exited as quickly as possible.

Having heard Padgett and Ross mentioned I started at once to find them. I found their offices to be in a many story building situated where old Lake Tulepekaliga used to be. It had long since been drained and the ground used for building purposes. Well anyway, when I entered, I found the two lawyers very busy. Mr. Ross was standing on his toes on a high three legged stool trying to read an enormous law book which lay upon the floor. Mr. Padgett stood before him and repeated Mr. Ross's dictations. Every now and then he would hit the table with his fist and then jump up and down. When he had finished he assured Mr. Ross that they were sure to win their case that afternoon, without a doubt.

Leaving the two lawyers to their

seives I again started on my journey. When I had traveled several miles I noticed a queer looking building and, as I drew near, a sign informed me that it was Edith Sackhoff and Mary Alice Bracey's Banana Farm. The farm consisted of forty acres, five acres on each floor. The real estate men had made land so dear in St. Cloud that people found it to their advantage to build straight up instead of out. Edith and Mary were only a few of the people that had taken advantage of this new acreage plan. Mary was manager and general overseer while Edith took charge of the commercial end of the business. She made a very energetic saleswoman and put the life in the trade.

Having visited all my old friends (albeit they did not see me) and found them content or nearly so with life I took a deep sigh that I could not be with them again in the old town of St. Cloud, but, as facts are facts and what is now can't be moved back to the past, I once again turned my face in the opposite direction and flew towards Speedland.

CASE OF LAMB AGAIN BEFORE SUPREME COURT

Tallahassee, May 28.—The state supreme court today took under advisement another application for the release of J. J. Lamb, Bradenton, under bond following oral arguments on the petition. It was contended by counsel for Lamb that he was convicted and sentenced to life on recommendation of the jury and after the capital punishment had been eliminated by the verdict he was, under the constitution, entitled to bail.

Lamb was convicted of killing a man at Bradenton several months ago after a conference over the son of Lamb, the killing having taken place on the school grounds during recess.

Crescent City, May 28.—At a mass meeting tonight presided over by R. C. Middleton, practically every prominent citizen and business man of Crescent City was present and voiced his expression regarding the proposed sale of the light and water plant to the utilities corporation.

It was unanimously decided to reject their offer and refer the matter back to the town council in order that the present bid may be changed especially with reference to the granting of a thirty year franchise and also readjustment of power rates. Representatives of the utilities corporation expressed a willingness to confer with committee selected and in all probability some satisfactory agreement will be reached.
